Summary

Software Developer with hands-on experience in building scalable web and mobile applications using **React, React Native, Node.js, and C++ (DSA)**. Skilled in full-stack development, API optimization, and cross-functional collaboration. Proven record of improving efficiency, building production-ready apps, and solving real-world problems with innovative solutions. Passionate about clean code, problem-solving, and contributing to impactful projects.

Experience

Software Development Engineer (Full-Time)

Suffai

May 2024 – Present — Remote

- Optimized the admin frontend, improving workflow efficiency by **40%**.
- Enhanced Node.js backend APIs, reducing response time by **30%**.
- Built a React Native app from scratch, achieving **1,000+ installs, 4.5 rating**.
- Automated CI/CD pipelines with Expo, cutting release cycles by **20%**.

App Developer (Contract)

Figleo Web Services

Apr 2024 – Oct 2024 — Remote

- Developed a visitor management system with offline AsyncStorage support, boosting efficiency by **50%**.
- Reduced crash rates by **25%** through optimized Redux state management.
- Built a QR/barcode attendance scanner, cutting check-in time by **70%**.

Cybersecurity Intern

Gurugram Police Cyber Cell

Jun 2024 – Jul 2024 — Gurugram, India

- Assisted in resolving **5 high-profile cyber fraud cases**.
- Performed threat analysis on 20+ digital devices, improving case resolution speed by **40%**.

Projects

Sarajod (GitHub)

React Native, Node.js, MongoDB

- Built a finance management app inspired by Khatabook for digital transaction records.
- Designed co-founder/manager approval workflows similar to GitHub pull requests.

ERohtak (Website)

React, React Native, Node.js, MongoDB

- Developed a multi-platform system with **100+ business listings**, boosting sales by **20%**.
- Designed responsive UI with Jest tests, improving engagement by **35%**.

RECHK (Website)

Next.js, PostgreSQL, Python, Hugging Face

- Built AI-powered platform to evaluate research papers, reducing manual review time by **80%**.
- Integrated ML models for plagiarism, grammar, and formatting checks.

Education

B.Tech in Computer Science, Maharshi Dayanand University

Expected Jun 2026

Skills

Languages: C++ (DSA), TypeScript, SQL, JavaScript, Python, Java

Frameworks: React, React Native, Node.js, Express, TailwindCSS

Databases: PostgreSQL, MongoDB, MySQL

Tools: Git, Firebase, Postman, Jest, Docker, Linux

Certifications

Google Cloud Big Data and ML Fundamentals

Foundations of Cybersecurity (Google)

Programming with JavaScript (Meta)

Modernizing Data Lakes (Google Cloud)

Docker: The Complete Guide
